Parents' information

Dear parents and guardians

Language is the key to the world - in order to offer your child the best possible support in this area, we would like to determine, as part of a preventive measure, whether your child's language has developed in an age-appropriate manner and what language skills your child has already acquired.

The language screening is voluntary and will take place at the daycare center.

We ask for your consent to conduct the "Marburger Sprachscreening" with your child. The results will not have any negative effects for the participating children.

You will receive a feedback sheet after the screening. Should the language screening show any abnormalities, we also offer a speech therapy examination and consultation at our health office. Please contact us afterwards by phone or e-mail to make an appointment.

Please fill out the enclosed consent form including parent questionnaire and release from confidentiality.

We would be happy to inform the daycare center about the results so that the educators can specifically promote the individual needs of your child. If you agree to this, please also fill out the enclosed release of confidentiality. If you do not agree to this, do not complete it.

Yours sincerely,

Mona Krättschmer, Christina Schmidt
