# Linguistic anomalies

## Your child...

- ...has difficulties understanding language
- ...understands poorly, often asks questions
- ...is poorly understood
- ...speaks significantly fewer words than children of the same age
- ...only speaks short, grammatically incorrect sentences
- ...speaks the second language significantly worse than the mother tongue

## We offer

- Speech screening for 4-year-old children in the daycare centres of the participating municipalities
- Speech therapy diagnostics and counselling
- Follow-up examination of conspicuous findings from the school entry examination
- "Multilingualism as an opportunity" workshop for parents and professionals
- Information events
- Counselling for educators
- Counselling for parents
- Interdisciplinary collaboration with various institutions
