## Book-n-drive car sharing in Groß-Gerau – how it works:

---

### Registration and collection of your customer card

To use the vehicle pool of book-n-drive, you only need to register once free of charge on the car share operator website: [www.book-n-drive.de/registrierung/](http://www.book-n-drive.de/registrierung/). You then receive confirmation and your personal documents via email. Once your registration has been approved, you can collect your customer card at one of the activation sites in the Frankfurt-Rhine-Main Area in order to open the car pool vehicles. In Groß-Gerau, you can do this at the local Rhine-Main Public Transport (RMV) office in Jahnstraße, Groß-Gerau (LNVG office).

### Booking a vehicle

You can log in to book the vehicles at [www.book-n-drive.de/](http://www.book-n-drive.de/), via the book-n-drive car sharing app, or via [web.book-n-drive.de](http://web.book-n-drive.de).

### Opening your vehicle

To open your car pool vehicle, you merely hold your customer card for several seconds against the card reader behind the windscreen of the respective vehicle. If the latter is booked in your name, the lamp goes green and the doors unlock. Alternatively, you can open the vehicle with your smartphone. To do this, simply go to "Bookings" in the book-n-drive car sharing app to use the mobile phone PIN. Another method is to use the RMV eTicket to access your car pool vehicle. The car key is located in a holder within the glove compartment. When returning the vehicle, you redeposit the key in the same place and lock the car with the customer card inside it.

### Price

The cost of a trip is a combination of time and kilometre price. Book-n-drive offers two different charges. One, without a basic charge, is for occasional drivers, and one is a reasonably-priced offer including a basic charge for frequent drivers. In both cases, the total charge includes the cost of fuel/electricity, insurance, accident breakdown cover, care and maintenance.

**Please visit the car share operator website for further details concerning registration, bookings, sites, charges/prices, insurance and settlement of bills: <https://www.book-n-drive.de/>**

## Sharing vehicles at the district authority site (*Kreisverwaltung*) in Groß-Gerau

At *Kreisverwaltung* Groß-Gerau on Wilhelm-Seipp-Straße 13, anyone can rent one of two electric vehicles outside of *Landratsamt* (District Administration) office hours on workdays or all day long at weekends. One of the two EVs is a state-of-the-art five-seater Renault Zoe with a battery capacity of 52 kWh, allowing a range of up to 350 kilometres. The second EV, a Nissan eNV200 with a range of around 200 km is a van, whose back row of seats can be folded out, creating a total of seven seats. Both EVs are charged at separate charging stations on the car park in front of the premises on Wilhelm-Seipp-Straße 13, and are attached to the station, which means that after the trip they are returned to the same site.

Additionally, the car pool includes so-called CityFlitzer city cars with a combustion engine. These are not restricted to the collection point, and can be deposited at other CityFlitzer locations in various cities in the Frankfurt-Rhine-Main Area. The location for CityFlitzer cars in Groß-Gerau is also the *Kreisverwaltung* on Wilhelm-Seipp-Straße 4 (in front of the main building.)

## Sharing vehicles at Gernsheimer Straße 10 in Groß-Gerau

A car share EV is also available on Gernsheimer Straße 10, near the Marktplatz (main square.) This Renault Zoe has a range of around 250 km and, like the two EVs at the *Landratsamt*, it is restricted to the charging station.

### Our unique electric cars

A special feature when using the EVs in Groß-Gerau is that before you drive away, you have to unplug the charging cable from the vehicle and plug it into the charging station. Now you can start!

When you return the car, after plugging in the charging cable you have to reactivate the charging procedure by holding the blue RFID chip (in the centre console of the EV) against the charging station sensor. Done!
